Labs-

1. Network lab.

2. Database Lab

3. Operating System Lab

4. Programming Lab

5. Software Testing Lab

6. Android Lab

7. Project Development Lab

8. Hardware Lab

Name of the Lab: - Network lab.

Computer Network lab has the facilities for conducting practicals of the subjects Computer Network, Network Management Administration and Fundamentals of ICT.

Major equipment in Lab

PC-Intel H61(1),core dueo processor pc(20),Dell vostro 230,Thinkpad Laptop(1), HPLaserjet1020 Printer(1),Intel core processor PC(2gbram(20),Intel core processor PC(2gb ram(1)24 port Dlink Switch CiscoSRW22464.

Name of the Lab: - Project Development Lab

This lab is specially designed for the students for completion of project work.

Major equipment in Lab

1.LAN network   2.Internet and Wi-Fi
PC-Intel H61(1),core dueo processor pc(20),Dell vostro 230,Thinkpad Laptop(1), HPLaserjet1020 Printer(1),Intel core processor PC(2gbram(20),Intel core processor PC(2gb ram(1)24 port Dlink Switch CiscoSRW22464.

Name of the Lab: - Programming Lab

Departmental Programming Computer Labs consist of Licensed Software under Microsoft agreement. This lab is used for the languages like C,C++,Data structure using C, Java Programming, Advanced Java Programming.

Major equipment in Lab

1.LAN network   2.Internet and Wi-Fi
PC-Intel H61(1),core dueo processor pc(20),Dell vostro 230,Thinkpad Laptop(1), HPLaserjet1020 Printer(1),Intel core processor PC(2gbram(20),Intel core processor PC(2gb ram(1)24 port Dlink Switch CiscoSRW22464.

Name of the Lab: - Operating System Lab

The goal of this lab is to have students understand and appreciate the principles in the design and implementation of operating systems software.

Major equipment in Lab

1.LAN network   2.Internet and Wi-Fi
PC-Intel H61(1),core dueo processor pc(20),Dell vostro 230,Thinkpad Laptop(1), HPLaserjet1020 Printer(1),Intel core processor PC(2gbram(20),Intel core processor PC(2gb ram(1)24 port Dlink Switch CiscoSRW22464.

Name of the Lab: - Software Testing Lab.

The goal of this lab is to have students understand and appreciate the various testing methods, test cases and testing principles in the design and implementation of Software Testing .

Major equipment in Lab

1.LAN network   2.Internet and Wi-Fi

PC-Intel H61(1),core dueo processor pc(20),Dell vostro 230(20),Intel core processor PC(2GBRAM(20),24 port Dlink Switch CiscoSRW22464 , Switch , UPS,Printer.

Name of the Lab: - Android Lab.

The goal of this lab is to have students understand and develop a mobile application using Android.

Major equipment in Lab

1.LAN network   2.Internet and Wi-Fi

PC-Intel H61(1),core dueo processor pc(20),Dell vostro 230(20),Intel core processor PC(8 GBRAM(20),24 port Dlink Switch CiscoSRW22464 ,UPS , Printer.
